

Session 3: Hydrology & Clouds 3:00- 5:30 PM

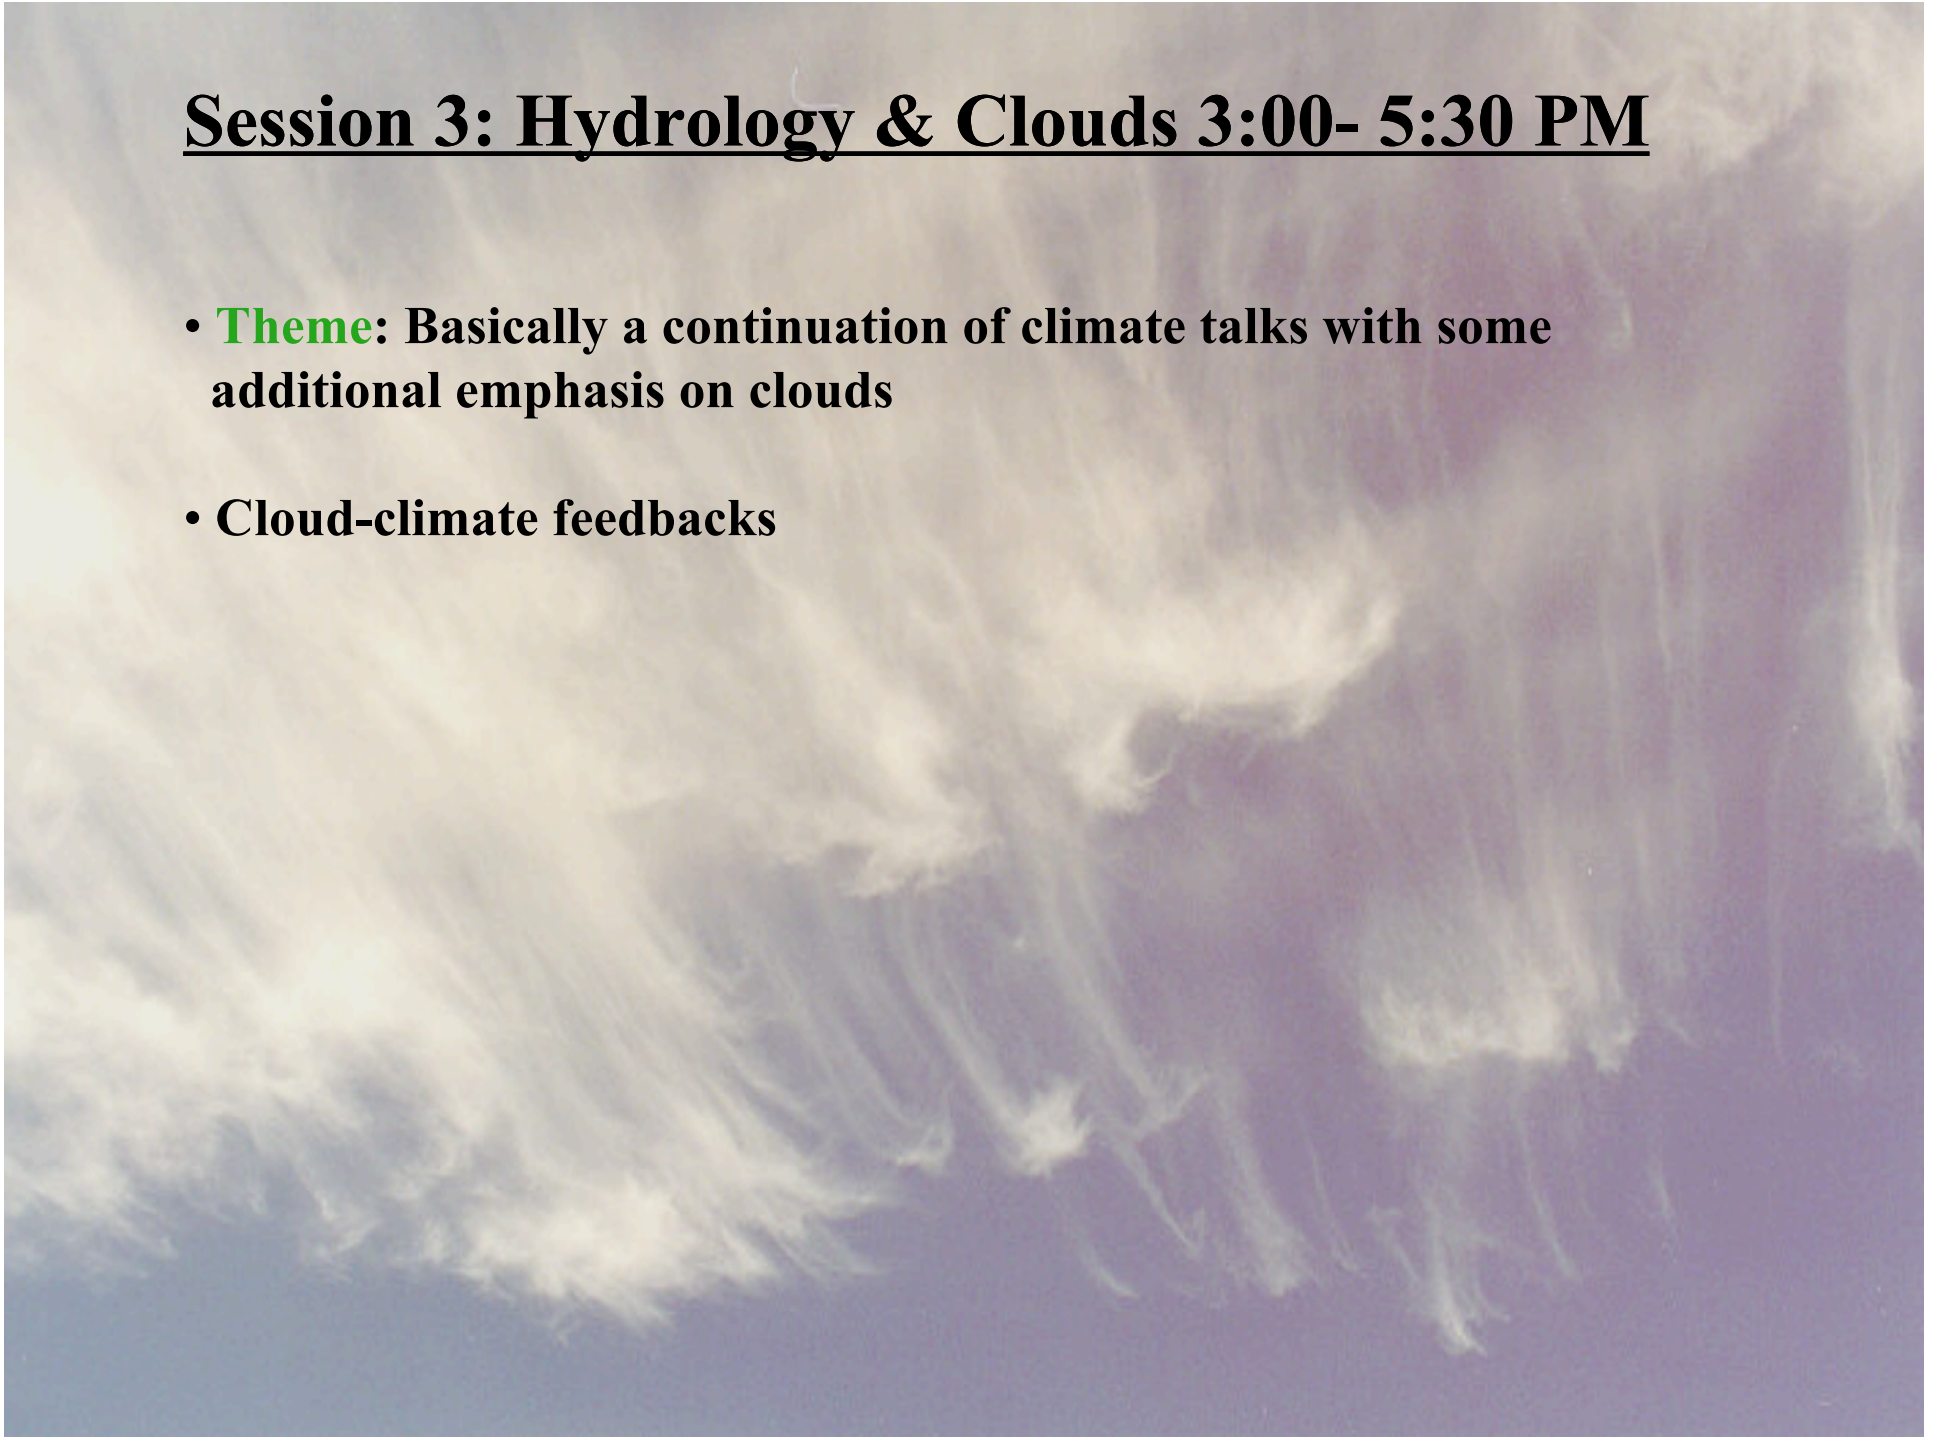

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Theme:** Basically a continuation of climate talks with some additional emphasis on clouds

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Theme:** Basically a continuation of climate talks with some additional emphasis on clouds
- **Cloud-climate feedbacks**

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Theme:** Basically a continuation of climate talks with some additional emphasis on clouds
- **Cloud-climate feedbacks**
- **Land-air exchange**

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Theme:** Basically a continuation of climate talks with some additional emphasis on clouds
- **Cloud-climate feedbacks**
- **Land-air exchange**
- **Cirrus and relative humidity**

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Theme:** Basically a continuation of climate talks with some additional emphasis on clouds
- **Cloud-climate feedbacks**
- **Land-air exchange**
- **Cirrus and relative humidity**
- **Integration of datasets from multiple platforms**

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Theme:** Basically a continuation of climate talks with some additional emphasis on clouds
- **Cloud-climate feedbacks**
- **Land-air exchange**
- **Cirrus and relative humidity**
- **Integration of datasets from multiple platforms**
- **Radiative transfer in cloudy atmospheres**

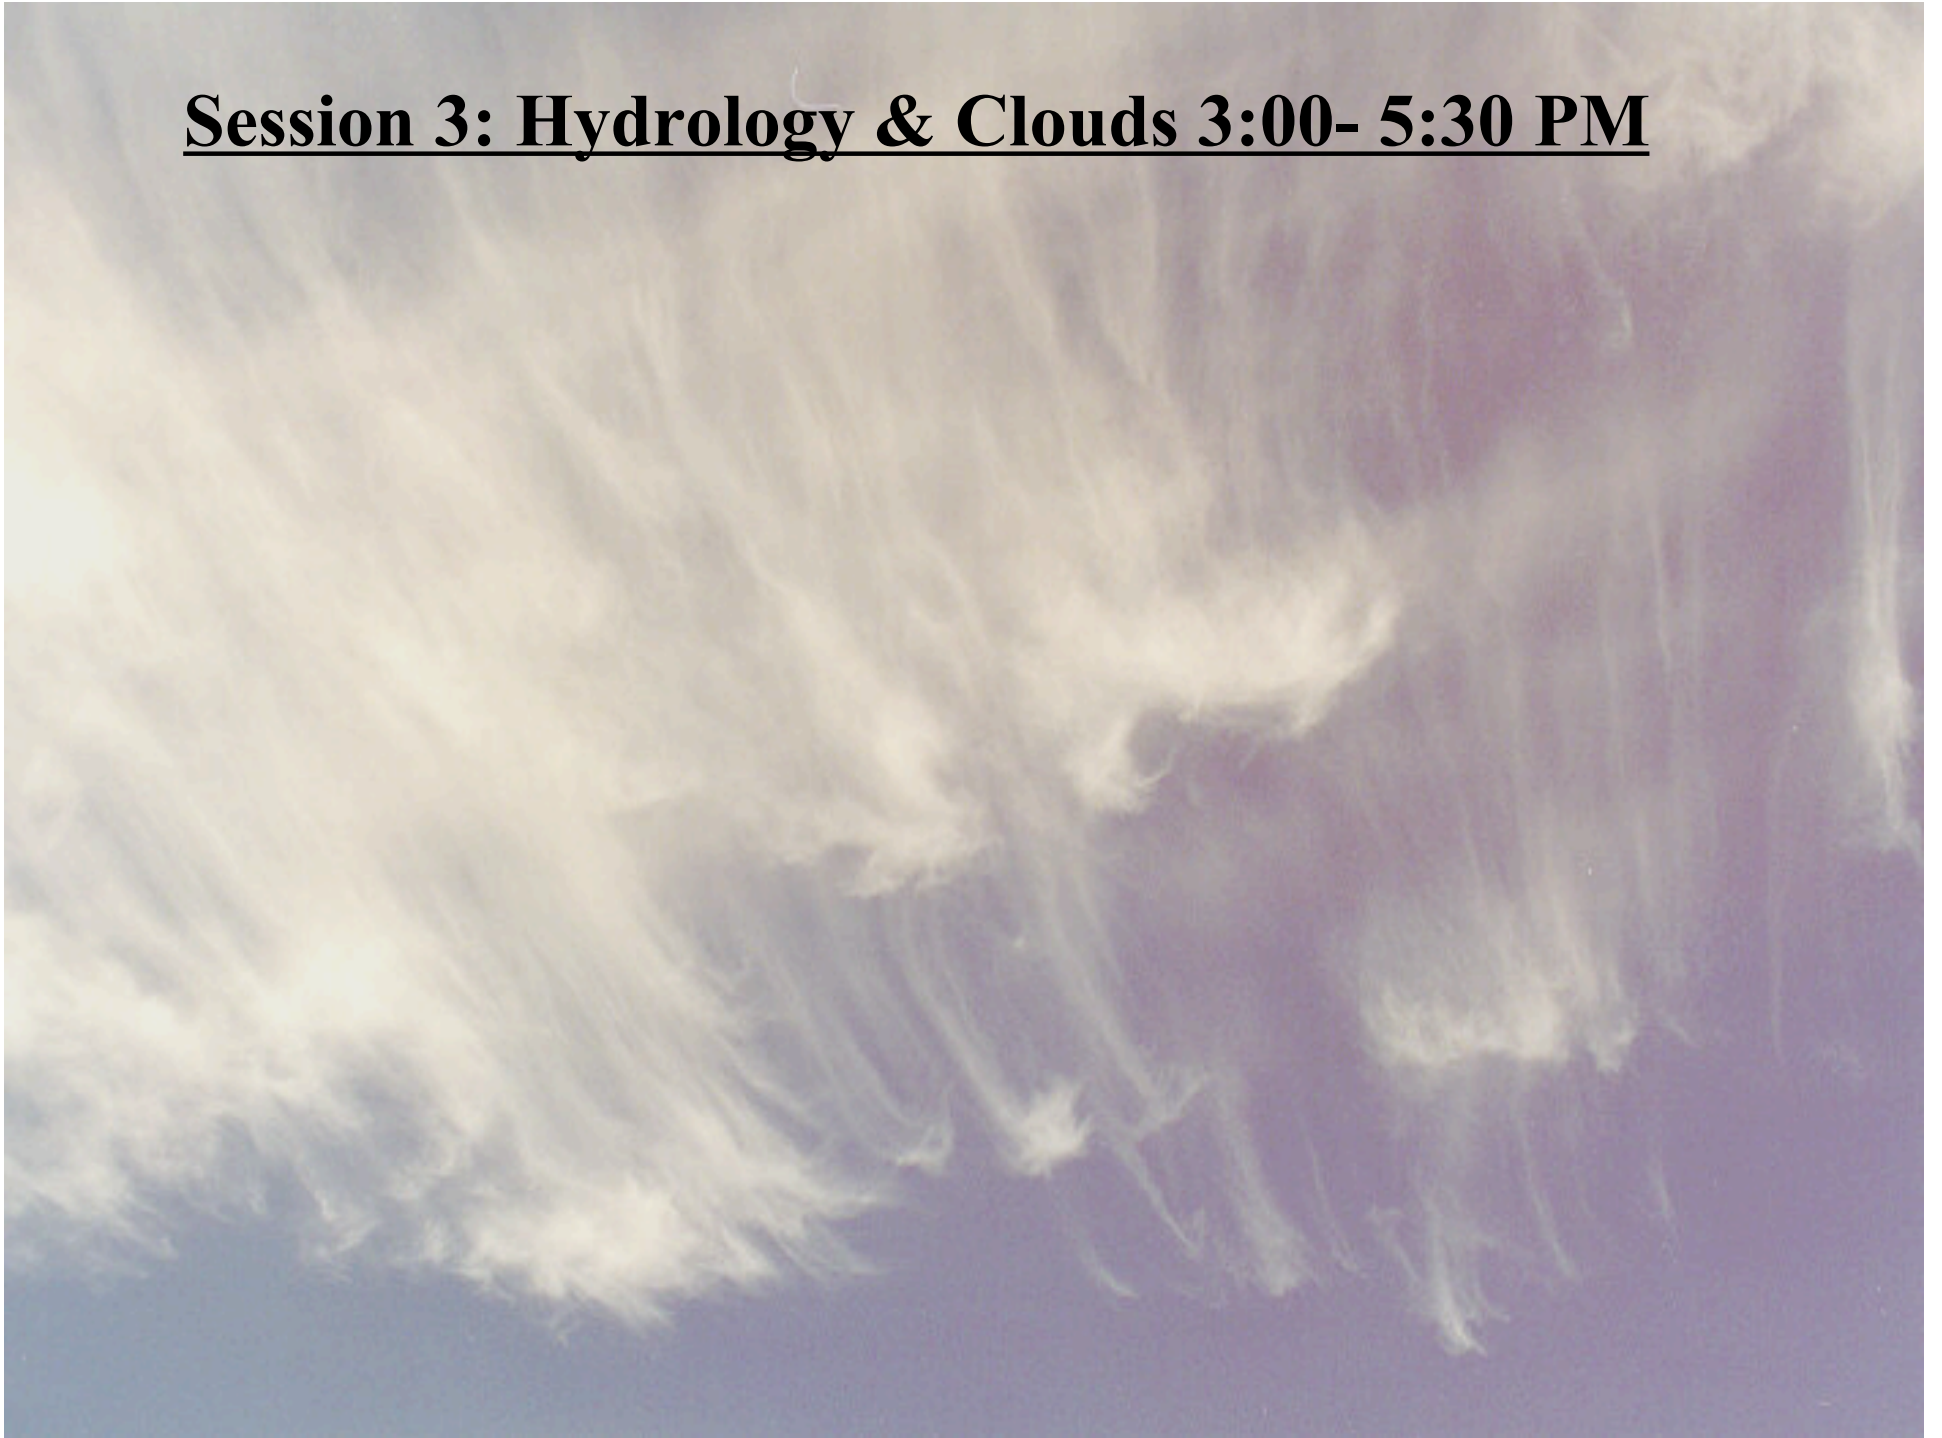

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Theme:** Basically a continuation of climate talks with some additional emphasis on clouds
- **Cloud-climate feedbacks**
- **Land-air exchange**
- **Cirrus and relative humidity**
- **Integration of datasets from multiple platforms**
- **Radiative transfer in cloudy atmospheres**
- **Tropical-extratropical transitions**

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Theme:** Basically a continuation of climate talks with some additional emphasis on clouds
- **Cloud-climate feedbacks**
- **Land-air exchange**
- **Cirrus and relative humidity**
- **Integration of datasets from multiple platforms**
- **Radiative transfer in cloudy atmospheres**
- **Tropical-extratropical transitions**
- **Aerosol retrievals**

Session 3: Hydrology & Clouds 3:00- 5:30 PM

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Brian Kahn** (JPL): “Hydrology and Clouds” **(3:00 PM)**

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Brian Kahn** (JPL): “Hydrology and Clouds” (3:00 PM)
- **Eric Fetzer** (JPL): “Characterizing the hydrologic cycle with AIRS and other A-Train data sets” (3:10 PM)

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Brian Kahn** (JPL): “Hydrology and Clouds” (3:00 PM)
- **Eric Fetzer** (JPL): “Characterizing the hydrologic cycle with AIRS and other A-Train data sets” (3:10 PM)
- **Larrabee Strow** (UMBC): “Aerosol Retrievals AIRS/Picasso comparison” (3:30 PM)

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Brian Kahn** (JPL): “Hydrology and Clouds” **(3:00 PM)**
- **Eric Fetzer** (JPL): “Characterizing the hydrologic cycle with AIRS and other A-Train data sets” **(3:10 PM)**
- **Larrabee Strow** (UMBC): “Aerosol Retrievals AIRS/Picasso comparison” **(3:30 PM)**
- **Hui Su** (JPL): “Tropical cirrus variation with sea surface temperature and their radiative effect: revisit of "Iris" hypothesis” **(3:50 PM)**

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Brian Kahn** (JPL): “Hydrology and Clouds” (3:00 PM)
- **Eric Fetzer** (JPL): “Characterizing the hydrologic cycle with AIRS and other A-Train data sets” (3:10 PM)
- **Larrabee Strow** (UMBC): “Aerosol Retrievals AIRS/Picasso comparison” (3:30 PM)
- **Hui Su** (JPL): “Tropical cirrus variation with sea surface temperature and their radiative effect: revisit of "Iris" hypothesis” (3:50 PM)
- **Joao Teixeira** (NATO): “The transition from the subtropics to the tropics: an intercomparison study” (4:10 PM)

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Joe Santanello** (NASA GSFC): “Near Surface Land Retrievals and Land-Air Exchange” **(4:30 PM)**

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Joe Santanello** (NASA GSFC): “Near Surface Land Retrievals and Land-Air Exchange” (4:30 PM)
- **Alan Lipton** (AER): “Infrared Radiative Transfer in Cloudy Atmospheres and Retrieval Applications” (4:50 PM)

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Joe Santanello** (NASA GSFC): “Near Surface Land Retrievals and Land-Air Exchange” (4:30 PM)
- **Alan Lipton** (AER): “Infrared Radiative Transfer in Cloudy Atmospheres and Retrieval Applications” (4:50 PM)
- **Brian Kahn** (JPL): “Tropical thin cirrus and relative humidity viewed from AIRS” (5:10 PM)

Session 3: Hydrology & Clouds 3:00- 5:30 PM

- **Joe Santanello** (NASA GSFC): “Near Surface Land Retrievals and Land-Air Exchange” (4:30 PM)
- **Alan Lipton** (AER): “Infrared Radiative Transfer in Cloudy Atmospheres and Retrieval Applications” (4:50 PM)
- **Brian Kahn** (JPL): “Tropical thin cirrus and relative humidity viewed from AIRS” (5:10 PM)
- **ADJOURN 5:30 PM**
